NAWRIN TARANNUM

Software Engineer | Web & Embedded Systems Developer

Email: nawrintarannum30@gmail.com | Phone: +880 178838781 | Location: Dhaka, Bangladesh
Portfolio: https://nawrin30.github.io/PORTOFOLIO/ | GitHub: https://github.com/nawrin30 | LinkedIn: www.linkedin.com/in/nawrin-tarannum-6280b03a5

EXECUTIVE SUMMARY

Motivated Computer Science & Engineering student with hands-on experience in full-stack project management web systems, Java/C++ programming, Generative AI integration, and Autonomous Robotics. Proven ability to architect task workflow solutions and build real-time hardware control systems. Certified in Generative AI, Prompt Engineering, Cyber Hygiene, and Object-Oriented Programming.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Java, JavaScript, HTML5, CSS3
- **AI & Web Concepts:** Generative AI, Prompt Engineering, Task Workflow Architecture, Responsive UI
- **Robotics & Hardware:** Arduino, Microcontrollers, Ultrasonic Sensors, PIR Motion Sensors, Hardware Drivers
- **Tools & Platforms:** Git, GitHub, VS Code, Linux/Bash
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Cyber Hygiene

FEATURED PROJECTS

TaskFlow – Smart Task & Project Management System | *Web Application / System Design*

Technologies: *JavaScript, HTML5, CSS3, Web Storage / APIs*

- Designed and developed a comprehensive project management system for efficient task scheduling, status tracking, and workflow optimization.
- Implemented dynamic task assignment, priority tagging, and automated deadline reminders for seamless team collaboration.
- Created an intuitive and interactive user interface with real-time UI updates and responsive layout across all device viewports.

Autonomous Obstacle Avoidance Robot | *Robotics / Embedded Systems*

Technologies: *C/C++, Arduino, Ultrasonic Sensors, Motor Driver Modules*

- Engineered an autonomous robotic system capable of real-time obstacle detection, precise distance measurement, and intelligent navigation.
- Implemented motor control algorithms and sensor data feedback processing for smooth pathfinding and immediate collision avoidance.
- Authored full technical project documentation and structural schematics adhering strictly to IEEE standards.

CERTIFICATIONS & TRAINING

- **What Is Generative AI?** – LinkedIn Learning *(July 24, 2026)*
- **GenAI and Prompt Engineering** – Grameenphone Academy *(July 20, 2026)*
- **Network Smarter with AI** – Grameenphone Academy *(July 20, 2026)*
- **Cyber Hygiene Training Completion Certificate** – The Asia Foundation & SAJIDA Foundation *(July 19, 2026)*
- **Introduction to HTML** – Simplilearn SkillUp *(July 19, 2026)*
- **OOPs in Java** – Simplilearn SkillUp *(March 14, 2026)*

EDUCATION

Bachelor of Science in Computer Science & Engineering

Daffodil International University, Dhaka, Bangladesh | 2024 – 2028

Relevant Coursework: Data Structures & Algorithms, Web Engineering, Software Architecture, Object-Oriented Programming, Microprocessors.
